(c.) To securely couple and connect the cars composing the train with couplers which couple automatically by impact, and which can be uncoupled without the necessity of men going in between the ends of the cars.

3. Such apparatus, appliances, and means for the checking of speed or the stopping of any train or car shall include a power drive-wheel brake and appliances for operating the train-brake system upon the locomotive, motor, or car.

4. There shall also be such a number of cars in every train equipped with power- or train-brakes that the engineer or motorman on the locomotive drawing such train can control its speed, or bring the train to a stop in the quickest and best manner possible, without requiring the brakemen to use the common hand-brake for that purpose.

5. Upon all trains and cars carrying passengers such system of brakes shall be continuous, instantaneous in action, and capable of being applied at will by the engineer, motorman, or any trainman, and the brakes must be self-applying in the event of any failure in the continuity of their action.

Hand-grips placed anglewise over the ladders of each box car and so arranged as to assist persons in climbing on the roof by means of the ladders: Provided that, if there is at any time any other improved side attachment which, in the opinion of the Minister, is better calculated to promote the safety of the train-hands, the Minister may, by certificate under his hand and seal of office, require all cars to be fitted with the said improved attachment.

7. All freight-cars shall be constructed and equipped in accordance with the rules of the Association of American Railroads.

8. All cabooses shall be equipped with a gauge connected to the air-brake train-pipe. The gauge shall be placed in cupola, and also shall be equipped with an emergency discharge-valve. 20. Whenever any railway crosses any highway at rail-level, the company shall not, nor shall its officers, agents, or employees, wilfully permit any engine, tender, or car or any portion thereof to stand on any part of such highway for a longer period than five minutes at one time, or, in shunting, to obstruct public traffic for a longer period than five minutes at one time, or, in the opinion of the Minister, unnecessarily interfere therewith.
